Department Name

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London. As one of Canada's top ten research institutes, we are committed to furthering scientific knowledge to advance health care around the world.

There is a broad range of responsibilities, with a focus on all dimensions of Clinical Trials and other clinical studies. This includes day-to-day operations of clinical studies including: recruiting new participants, following up with previous participants, collecting data and entering data, assuring the all clinical trial documentation are in order after recruiting a new participant (logging, signatures and medical documentation). Working under the direction of the Principal Investigator, the Research Associate (RA) will collaborate with the clinical research coordinator and researcher assistants and multi-disciplinary health care teams to assume responsibility for the overall patient recruitment and reenrollment of the ongoing research studies.

Rate of Pay: To commensurate with experience

Hours of Work: 21 hours per week (Shifts will be days, nights, weekends or on call.)

Duration: 12 Months

Qualifications

- Successful completion a Bachelor's degree in a health related field
- Current certificate of registration from a college recognized under the Regulated Health Professionals Act
- SOCRA or ACRP certified (or willingness to certify)
- Demonstrated clinical research experience
- Experience with venipuncture/willingness to certify
- Experience assisting with a variety of research projects
- Experience with data collection and data entry
- Ability to review and assess data collected
- Evidence of good physical assessment, psychosocial assessment and patient/family teaching skills
- Training in ICH/GCP, Division 5 Regulations and TCPS2 an asset
- Experience consenting patients for clinical trials and recruiting trial participants (screening & enrolling) Excellent interpersonal and communication skills
- Able to work in a changing, dynamic environment, prioritizing a large volume of work and meeting deadlines
- Demonstrated ability to work independently and as part of a multi-disciplinary team
- Commitment to ongoing learning
- High energy to keep study personnel motivated and committed to study success
- Demonstrated knowledge of and commitment to the principles of patient and family centred care
- Demonstrated knowledge of and commitment to patient and staff safety at LHSC
- Demonstrated ability to attend work on a regular basis

London Health Sciences Centre fosters a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory police information check (original document) completed in the last 3 months.
