**Job Title** Research Associate - Gynecologic Oncology

**Job ID** 58611

**Location** Victoria Hospital

**Full/Part Time** Full-Time

**Regular/Temporary** Temporary

**Favorite Job** ☆

### Posting Period

Open: October 3, 2017

Deadline: October 9, 2017

Non-Union

Different terms and conditions of employment may apply to externally funded positions.

### Department Name

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London. As one of Canada's top ten research institutes, we are committed to furthering scientific knowledge to advance health care around the world.

The Research Associate will assist the gynecologic oncology team with investigator initiated studies, including projects associated with the Institute for Clinical Evaluative Sciences (ICES). Our group consists of gynecologic surgeons who treat ovarian, cervical and endometrial cancers as well and fundamental cancer scientists who work in a laboratory setting. We carry out various types of research and this position will primarily focus on health and clinical outcomes questions associated with the treatment and care of gynecologic cancer patients. The successful candidate will report to Dr. Jacob McGee (Gynecologic Oncology surgeon), and will work collaboratively with the Translational Ovarian Cancer Research Program members at the LRCP.

**Rate of Pay:** To commensurate with experience

**Hours of Work:** 37.5 hours per week

**Duration:** 12 month contract

### Qualifications

- Bachelor's Degree in health related field or equivalent. Master's degree would be a significant asset
- Clinical research experience valued
- Knowledge of local REB requirements would be a significant asset
- Excellent ability to read, write and communicate effectively and professionally with co-workers and study participants in English
- Demonstrated cooperation in a team environment
- Highly motivated and self-directed, with ability to work independently with minimal supervision
- Excellent computer skills and ability to navigate social media
- Demonstrated ability to plan, prioritize, execute and manage several research studies
- Excellent decision-making, problem recognition and problem solving skills
- Demonstrated knowledge of and commitment to the principles of patient and family centered care
- Demonstrated knowledge of and commitment to patient and staff safety at LHSC
- Demonstrated ability to attend work on a regular basis

London Health Sciences Centre foster a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

As part of the assessment process applicants may be required to complete a written examination or test. Please be advised that an internal reference check may be conducted as part of the selection process.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory vulnerable sector police check (original document) completed in the last 3 months.
