**Lawson Health Research Institute - Department of Paediatrics**

The Canadian Pharmacogenomics Network for Drug Safety (CPNDS) is a surveillance program evaluating adverse drug reactions (ADRs) in children and adults. The surveillor is responsible for collecting timely and accurate data on cases and controls, and meeting the project goals and priorities set forth by the CPNDS Network; building effective working relationships with clinicians at London Health Sciences Centre, and to conduct patient enrollment, clinical data collection, maintain quality medical documentation on research subjects, and clinical classification and characterization of adverse reactions.

Rate of Pay: To commensurate with experience

Hours of work: 37.5 hours per week

Duration of Contract: 12 months (with possibility of renewal)

### Qualifications

- Successful completion a Bachelor's degree in a health related field
- Current certificate of registration from a college recognized under the Regulated Health Professionals Act
- Minimum two years clinical experience with pediatric specific ambulatory care experience required. Experience within the London Health Sciences Centre setting is essential.
- A minimum of five years of experience in clinical research is desirable
- Strong knowledge of the scientific terminology in the health sector
- Exemplary interpersonal skills both verbally and in writing
- Confidence and interpersonal communication skill set necessary to establish new working relationships with various clinicians and teams
- Ability to liaise and network with other health professionals within other provincial health jurisdictions
- Superior organizational, problem solving and critical thinking, and attention to detail. Precision and dependability an asset
- Confident to assume independent work and to actively seek support when required
- Organize and manage workload with accuracy
- Working knowledge of computer software and databases is an asset
- Demonstrated knowledge of and commitment to the principles of patient and family centred care
- Demonstrated knowledge of and commitment to patient and staff safety at LHSC
- Demonstrated ability to attend work on a regular basis

London Health Sciences Centre foster a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

As part of the assessment process applicants may be required to complete a written examination or test. Please be advised that an internal reference check may be conducted as part of the selection process.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory police information check (original document) completed in the last 3 months.
