

## **Lawson Health Research Institute**

### **Guideline: N95 Respirator Fit Testing Procedure**

#### **GUIDELINE**

All volunteers/students who work with or are in contact with patients, lenti virus and/or animals are required to complete their N95 Respirator Fit Testing.

Western students working with animals please email Anne Marie McCusker ([amccuske@uwo.ca](mailto:amccuske@uwo.ca)) to register for your fit test. Western students who are working with patients must make an appointment with Western Student Health Services. All others can complete their fit testing through Middlesex-London Health Unit.

Once completed please email a copy of your certificate to [Hien.Nguyen@LawsonResearch.com](mailto:Hien.Nguyen@LawsonResearch.com)

Please note that N95 Respirator Fit Tests expire every two years and therefore must be completed every two years.

**\*\*\* It is your responsibility to ensure that your staff has the appropriate protective equipment, which may include an N95 respirator. If an N95 respirator is required it is your responsibility to ensure that your staff has attended an N95 fit testing session.**
