Posting Period

Open: March 21, 2018

Deadline: April 3, 2018

Non-Union

Different terms and conditions of employment may apply to externally funded positions.

Department Name

The Research Coordinator will be responsible for the design and implementation of observational and experimental studies within the Division of Emergency Medicine at the London Health Sciences Centre.

The Coordinator will design and format research study protocols; conduct thorough literature searches; design and distribute data collection forms, coordinate randomized trials and assist with retrospective medical record reviews and systematic reviews. Additionally, the successful candidate will assist in the analysis and interpretation of study results using standard biostatistical software. The Coordinator will be required to write sections of manuscripts for publication; format research study protocols, case report forms, surveys, abstracts, and posters and write epidemiological analysis and interpretation of study results.

Rate of Pay: To commensurate with experience

Hours of Work: 37.5 hours per week

Duration of Contract: 12 months (June 2018 - June 2019)
