Department Name

Lawson Health Research Institute - London Regional Cancer Program (LRCP)

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London. As one of Canada's top ten research institutes, we are committed to furthering scientific knowledge to advance health care around the world

The Inflammatory Bowel Disease & Colon Cancer Research Program is based in the Cancer Research Laboratory Program of LRCP. Our research focus is focused on intestinal/colonic stem cells with particular relevance to chronic inflammatory bowel disease and colon cancer. We utilize a variety of basic laboratory technologies including transgenic mouse models and in vitro primary cultures to study colorectal malignancies. Our lab team consists of graduate and undergraduate students, medical residents and is highly interactive.

Rate of Pay: To commensurate with experience

Hours of work: 37.5 hours per week

Duration: May 2018 to April 2019

Qualifications

- Successful completion of a minimum of a Bachelor or Master's of Science in Cell Biology/Biochemistry or other related area of study
- Minimum 2 years recent experience in laboratory-based research related to biomedical science, specifically with cell culture, histology and basic molecular biology; experience handling mice is an essential asset
- High motivation and enthusiasm for learning new skills are an essential asset
- Proficiency in Microsoft Word, Excel, and PowerPoint
- Ability to organize and prioritize effectively in a setting of competing demands while maintaining attention to detail and accuracy
- Excellent organizational, analytical and problem-solving skills
- Excellent oral and written communication skills
- Ability to work effectively both independently and as part of a team
- Familiarity and experience with establishing animal and laboratory safety protocols is an asset
- Knowledge of reagent purchasing protocols through HMMS or UWO Mustang Marketis is an asset
- Working knowledge of health and safety, hazardous waste, radiation safety and WHMIS legislation
- Demonstrated knowledge of and commitment to the principles of patient and family centered care
- Demonstrated knowledge of and commitment to patient and staff safety at LHSC
- Demonstrated ability to attend work on a regular basis

London Health Sciences Centre foster a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

As part of the assessment process applicants may be required to complete a written examination or test. Please be advised that an internal reference check may be conducted as part of the selection process.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory police information check (original document) completed in the last 3 months.
