Open: May 14, 2019

Deadline: May 27, 2019

Non-Union

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London. As one of Canada's top ten research institutes, we are committed to furthering scientific knowledge to advance health care around the world.

The Clinical Research Associate is required to conduct industry-sponsored, academic and investigator-initiated clinical trials in GU Cancer and Urologic Diseases. This includes interventional drug trials, medical device trials, as well as quality of life and observational studies. The successful candidate will be responsible for research ethics board submissions, required institutional and departmental submissions, participant screening and enrolment, and overall study conduct including data collection. The position requires working collaboratively within a study team and reporting to the Unit Manager.

Rate of Pay: To commensurate with experience

Hours of Work: 37.5 hours per week

Duration of Contract: June 1, 2019 - May 31, 2020 (with possibility of renewal)

Qualifications

- Minimum of Bachelor's Degree in health related field
- Minimum of two years clinical research experience and must demonstrate full responsibility for implementing drug and/or medical device trials (oncology drug trial experience an asset)
- Clinical Research Professional certification required (SOCRA, ACRP)
- Blood processing and phlebotomy certification required
- Transportation of Dangerous Goods/ International Air Transport (TDG/IATA) certification required
- Current CPR certification an asset
- Demonstrated knowledge of current regulations and guidelines for conducting clinical trials (ICH GCP, Health Canada Food and Drug Regulations (Part C, Division 5), USA FDA 21 CFR, TCPS2 Tri-Council Policy Statement, and privacy legislation (PIPEDA, PHIPA)
- Knowledge of local REB requirements an asset
- Demonstrated knowledge of drug therapy, management and accountability
- Well-developed patient assessment and evaluation skills
- Demonstrated ability to communicate effectively and professionally with study participants and co-workers
- Demonstrated cooperation in a team environment
- Demonstrated ability to plan, prioritize, execute and manage several research studies
- Demonstrated computer proficiency in Microsoft Office and experience with electronic data entry (eCRFs) and databases
- Excellent verbal and written communication skills in English
- Highly motivated and self-directed
- Demonstrated knowledge of and commitment to patient and staff safety
- Demonstrated ability to attend work on a regular basis

London Health Sciences Centre fosters a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory Police Information Check (original document) completed in the last 3 months.
