

## Temporary - Lawson, Research Coordinator – Clinical Genomics Laboratory

Job ID 68801 Location Victoria Hospital Full/Part Time Full-time Regular/Temporary Temporary

### Posting Period

Open: December 11, 2019

Deadline: December 17, 2019

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London. As one of Canada's top ten research institutes, we are committed to furthering scientific knowledge to advance health care around the world.

### Research Coordinator at the Clinical Genomics Laboratory - VH

Research Coordinator opportunity is available with Dr. Bekim Sadikovic, Head, Molecular Diagnostic Division, London Health Sciences Centre, and Associate Professor in the Department of Pathology and Laboratory Medicine, London Health Sciences and Schulich School of Medicine & Dentistry at Western University.

The position has an initial duration of two years, with the possibility of extension, to begin immediately.

We are seeking a motivated individual to join the expanding clinical research team consisting of a diverse group of postdoctoral fellows, genome analysts, and clinical bioinformaticists, focused on projects involving advanced molecular technologies in clinical genomics and related to ongoing studies in genomic and epigenomic changes in patients with a range of constitutional and somatic genomic conditions. **Main roles associated with this position involve coordination of translational research studies related to technology and biomarker development related to human genomics and epigenomics.**

Rate of Pay: To commensurate with experience

Hours of work: 37.5 hours per week

Duration of Contract: January 2020 – January 2022

Non-Union Different terms and conditions of employment may apply to externally funded positions.

### Qualifications

- Master of Science in related discipline
- Three (3) to four (4) years' experience as a Research coordinator preferred
- Minimum of two (2) year previous research experience, preferably in a health care environment
- Ability to work independently with minimal supervision, and as a member of a team collaborating with a multi-disciplinary research team and clinical experts
- Familiarity with Lawson & Western REB policies and systems is an asset
- Outstanding interpersonal and communication skills (verbal and written) required
- Demonstrated computer proficiency in Microsoft Office
- Strong attention to detail, organizational and time management skills. The ability to prioritize multiple tasks to meet competing deadlines

### Immunization Requirements:

- Provide vaccination records or proof of immunity against measles, mumps, rubella and varicella (chicken pox), Hepatitis B, Tetanus/ Diphtheria/Polio; Meningitis.
- Provide documentation of the Tuberculosis skin testing (two step)

London Health Sciences Centre fosters a culture of patient and staff safety whereby all employees are guided by LHSC's Mission, Vision, Values and Code of Conduct.

We are committed to providing a safe, healthy and inclusive work environment that inspires respect. LHSC encourages applications from persons with disabilities and we are committed to providing accommodations upon request.

As part of the assessment process applicants may be required to complete a written examination or test. Please be advised that a reference check may be conducted as part of the selection process.

Your interest in this opportunity is appreciated. Only those applicants selected for an interview will be contacted. Successful candidates, as a condition of job offer, would be required to provide a satisfactory police information check (original document) completed in the last 3 months.
