Clinical Research Assistant - 2 positions	Posting #: 35464
Lawson Health Research Institute	Posting Date: June 27, 2016
Parkwood Institute - Main Building	Submission Deadline: July 03, 2016
Full Time	Karen Topfer
Non-Union	

Term position, anticipated to extend until January 3, 2017, subject to the availability of work.

The successful candidate will work with a highly successful research team under Dr. Robert Teasell. The work involves updating an extensive research database through careful review and analysis of the neurorehabilitation literature. This position will involve a number of tasks including conducting literature searches, data extraction, synthesizing the findings and assigning levels of evidence to create research reviews. There will also be opportunity to help produce manuscripts for publication. This position is for a full-time (37.5 hours per week), six month contract with the possibility of renewal.

Essential Qualifications
- Thesis-based Masters Degree
- Experience with MS Office applications and reference management software
- Excellent interpersonal, organizational, and problem-solving skills
- Demonstrated productivity, attention to detail and high quality work
- Proficient in searching scientific databases
- Ability to meet tight deadlines and multitask without direct supervision
- Strong, formal writing skills
- Exceptional listening and professional communication skills
- Familiarity with statistics

Preferred Qualifications

- Previous experience with study design in healthcare and/or rehabilitation
- Knowledge of statistical software
- Previous knowledge and experience in neurorehabilitation
